

# GEO INDO PACIFIC HIRING

## GEOPOLITICAL ANALYST

Analysts will prepare reports and presentations, communicate insights, and collaborate with teams to align findings. They will also monitor global news, forecast geopolitical risks, provide strategic guidance, and maintain relationships with various stakeholders.

### KEY ATTRIBUTES

- Analyze data from various sources, including government reports, academic publications, and news articles, to identify trends and patterns.
- Build and maintain relationships with experts, scholars, government officials, and industry leaders to gather insights and perspectives.
- Attend conferences, workshops, and seminars to network and stay informed on geopolitical issues.
- Strong curiosity and a desire to understand global complexities.
- Provide guidance on risk assessment and strategic planning based on geopolitical insights.
- Prepare comprehensive reports, briefs, and presentations that summarize findings and provide actionable recommendations.
- Continuously monitor global and regional news and developments to stay updated on emerging geopolitical issues.
